INVESTMENT PROCESS · STAGE 05 IMPLEMENTATION PERIOD

Completed by the organization · every 6 or 12 months

Follow-up Report

Report progress against the KPIs or key results agreed for this grant or investment, and explain what you have learned while pursuing them.

Organization	
Grant or investment name	
Reporting period	
Type of report	-
Submitted by Name and role	
Date submitted	

Complete one KPI record for each agreed KPI. Three records are provided; if your agreement has more, attach the extra records as an annex. For interim reports, distinguish progress this period, cumulative progress and what was expected by this date. For final reports, report results through the grant end, remaining gaps and what will sustain the work after ver+.

Keep outreach and impact distinct. Outreach means people reached or units served. Impact means a change in learning, earnings or quality of public service delivery. Describe the strength and limitations of the evidence. Unsupported projections, or changes without a credible comparison, should not be presented as demonstrated impact.

1 KPI 1 progress report

KPI name As defined in the partnership agreement	
Original target and deadline Value, unit and date	
Progress achieved this reporting period Value and unit; distinguish outreach and impact if relevant	
Cumulative progress achieved Value and unit; distinguish outreach and impact if relevant	
Progress as % of original target Calculation and %; if inappropriate for this metric, explain and report change instead	
Status Relative to the agreed trajectory	-

Follow-up Report (cont.)

Narrative explanation and learning What enabled or limited progress? What do you know now that you did not know at the start? How does it explain results? What will change next? Up to 200 words	
Evidence and supporting information Links supporting the claims and numbers above	

Follow-up Report (cont.)

2 KPI 2 progress report

KPI name As defined in the partnership agreement	
Original target and deadline Value, unit and date	
Progress achieved this reporting period Value and unit; distinguish outreach and impact if relevant	
Cumulative progress achieved Value and unit; distinguish outreach and impact if relevant	
Progress as % of original target Calculation and %; if inappropriate for this metric, explain and report change instead	
Status Relative to the agreed trajectory	-
Narrative explanation and learning What enabled or limited progress? What do you know now that you did not know at the start? How does it explain results? What will change next? Up to 200 words	
Evidence and supporting information Links supporting the claims and numbers above	

Follow-up Report (cont.)

3 KPI 3 progress report

KPI name As defined in the partnership agreement	
Original target and deadline Value, unit and date	
Progress achieved this reporting period Value and unit; distinguish outreach and impact if relevant	
Cumulative progress achieved Value and unit; distinguish outreach and impact if relevant	
Progress as % of original target Calculation and %; if inappropriate for this metric, explain and report change instead	
Status Relative to the agreed trajectory	-
Narrative explanation and learning What enabled or limited progress? What do you know now that you did not know at the start? How does it explain results? What will change next? Up to 200 words	
Evidence and supporting information Links supporting the claims and numbers above	

Follow-up Report (cont.)

4 Organizational learning and transformation

Beyond KPI progress, describe changes in the organization.

Organizational transformation

What operational, strategic or programmatic transformations resulted from the work funded by this grant or investment? Consider processes, decisions, team structure, governance, delivery model, priorities and partnerships. Where relevant, explain how these changes strengthened your ability to create a solution or scale proven impact across LatAm; secure government or market adoption; grow results faster than costs; and reduce dependence on ver+. Describe pivots prompted by learning and remaining risks. For final reports, identify the owner, funding and partnerships that will sustain the work. Max 500 words.
